

## ASE61850 Suite Trial

### DESCRIPTION

The ASE61850 Suite may be downloaded and installed on any Windows compatible computer. The package becomes fully licensed and functional when operating in a computer with ASE enabling hardware (USB dongle). Without such hardware, functionality may be enabled for a limited period of time with a Trial License. Unlicensed software may be used for file viewing and configuration operations.

### REQUEST ASE61850 SUITE TRIAL

The ASE61850 Suite Trial License provides an opportunity for evaluation of the product within your environment. It is limited by date (30-day trial period) or maximum number of executions (75 executions), whichever comes first. Full functionality is supported while communication is active, but sessions automatically stop after 60 seconds of continual operation.

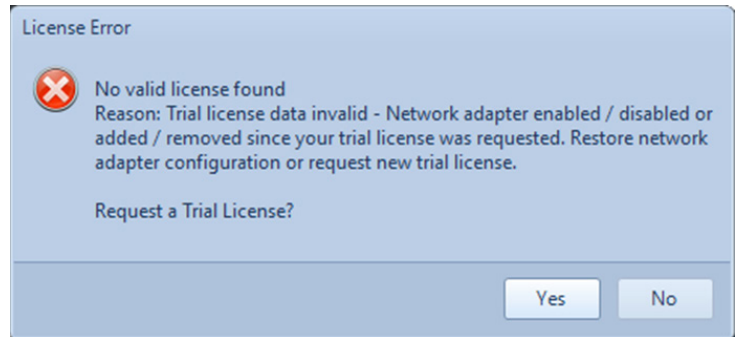

After the Trial period is over, the software can easily transition to a fully functional ASE61850 Suite product with purchase and installation of the ASE hardware (USB dongle).

### TRIAL LICENSE

An ASE Trial License locks the product evaluation to a single computer. You may request a Trial License of one or more of the three products that comprise the ASE61850 Suite; we recommend you download all three to full assess the value of the complete suite. To receive a Trial License for products that comprise the ASE61850 Suite (ASE61850 Client, ASE61850 SCL Manager, ASE IED Smart), you will need to generate a separate Trial License request for each.

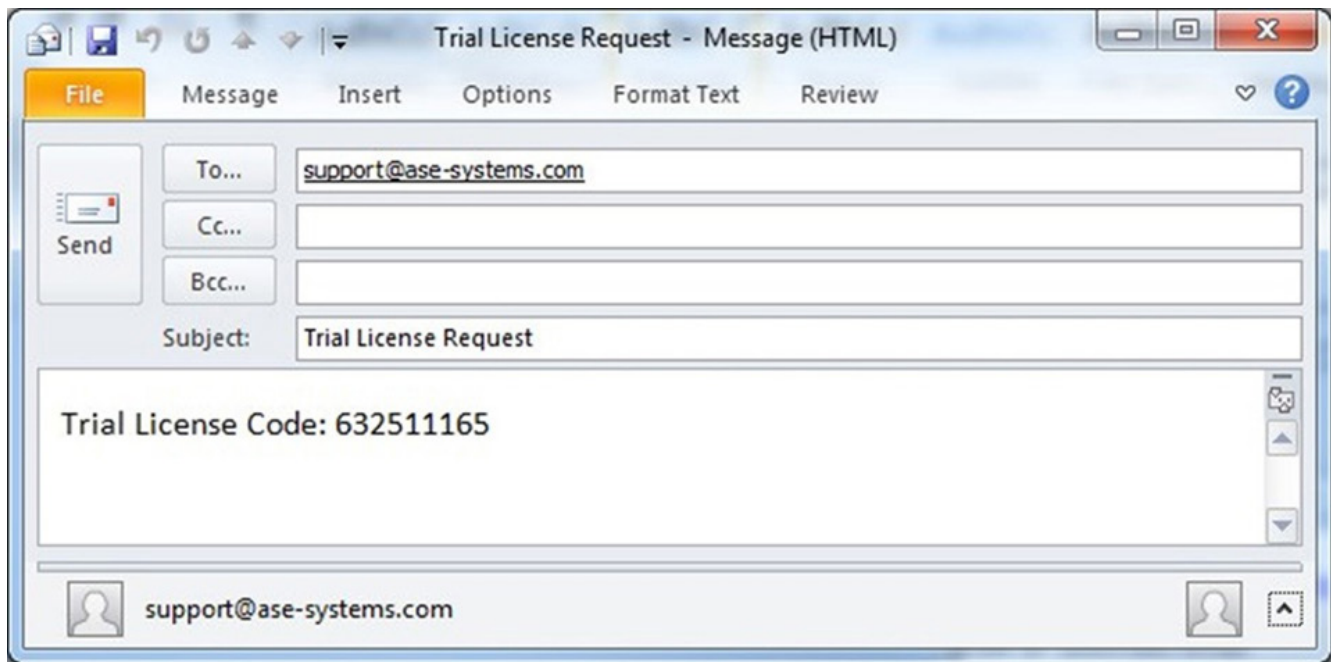

Please follow the steps below to request a Trial License:

- **Download** the current version of each product
  - ASE61850 Client
  - ASE61850 SCL Manager
  - ASE IED Smart
- Run the **setup.exe**
- Run the installed **application**
- If unlicensed, the following prompt will appear:

- Select **Send Request** to generate an automatic email request for a Trial License.
- If not connected to the Internet or an email program, email the value generated to [support@ase-systems.com](mailto:support@ase-systems.com) along with a request for a Trial License.
- In your email, please include your first and last name, company name, phone number and which of the ASE61850 Suite products for which you are requesting a Trial License.

- ASE will provide a Trial License file attached to a reply Email for each of the ASE61850 Suite products for which you request a Trial License.
- Re-run the each of the ASE61850 Suite products separately, and select Install License, browse to the file contained in the response Email for each of the products and select **OK**.

The ASE61850 Suite license file is valid only for the computer on which the Trial License value was generated. It will last for 30 days or 75 program executions, whichever occurs first.

#### REQUEST QUOTE

When you are ready to upgrade to the full ASE61850 Suite, send an email to us at [sales@ase-systems.com](mailto:sales@ase-systems.com) with your request for a quote or [visit our website](#). Also, please let us know any feedback about your experience.
